Healing with Honor, Felling Trailers Announces 2022 Trailer for a Cause Auction Dates

Felling Trailers, Inc. is conducting its tenth annual online auction of an FT-3 drop deck utility trailer to benefit a non-profit organization. Eagle's Healing Nest is the 2022 recipient. Felling Trailers wants to help generate awareness about the invisible wounds of war that our veterans carry. Thus, Felling Trailers manufactured and painted one of its most popular trailers, custom metallic "Patriot Blue" with chrome pinstriping and bears Eagle's Healing Nest's emblem along with its credo "Promises Made. Promises Kept." The online trailer auction will run for six days: August 22nd through August 27th. Several Felling Trailers' suppliers have joined to support Eagle's Healing Nest by sponsoring the trailer build, from lighting to tires to decking. The 2022 Trailer for a Cause sponsors are Trans-Texas, PPG, Dexter, Sealco, Peterson, Industrial Wood (Blackwood), Demco, Pacific Rim, and Metal Crafters/Flexco. One hundred percent of the winning bid will benefit Eagle's Healing Nest!

Founder Melony Butler created the Nest to be a place of peace and healing for veterans struggling from a host of issues ranging from depression, anxiety, PTSD, decades of homelessness, to addictions of many sorts. Veterans come to the Nest to heal with honor from the invisible wounds of war and time of service. Eagle's Healing Nest is located in Sauk Centre, Mn, on 124 acres with 24 buildings. Originally Minnesota Home School for girls, a veteran's healing center came to life out of an old dormitory.

Down

Melony opened the Eagle's Healing Nest in 2012 with two functional buildings. She stated, "We will build the Nest one branch at a time until it is complete! A place to call home and a place to Heal with Honor!" Since that time, with donations from various organizations, veterans, and volunteers contributing what they can, they have been able to renovate 21 of the 24 buildings on site. When the last of the buildings are complete, the Nest will be able to house 180-200 veterans, service members, and their families.

The Trailer for a Cause auction will start on Monday, August 22nd at 7 am, running for six days, ending Saturday, August 27th at noon at Eagle's Healing Nest's Nest Fest. The Eagle's Healing Nest is a non-profit organization that receives no government funding. Nest Fest is one of a few fundraising events the Nest hosts yearly. Now in its 9th year, the volunteers and residents of the Nest open their doors and hearts to the community with Veteran made crafts, silent auction, bake sale, tours, and new this year, the Trailer for a Cause auction. The online auction can be viewed at <https://www.felling.com/our-company/trailer-for-a-cause/>. Arrangements to be made for pick up at Felling Trailers' manufacturing facility or delivery (freight extra).

DECKED CargoGlide Literally Extends Truck-Bed Utility

Never climb into a truck bed to retrieve gear ever again

DECKED reveals CargoGlide, a heavy-duty sliding bed platform that makes loading, unloading, organizing, and accessing gear for work and play more efficient. CargoGlide allows owners to store and easily retrieve heavy and bulky items like welders, compressors, heavy-duty tools, refrigerators, spare tires, rescue gear, boxes, and more without crawling into the back of the truck.

With the pull of a lever, CargoGlide rolls forward out of the truck bed from its locked position. Extending past the end of the bed by as much as 100%, CargoGlide puts gear that would be otherwise out of reach at chest level.

“CargoGlide literally extends the floor of the bed out behind the truck, giving full and unrestricted access to gear and cargo,” said DECKED VP of Marketing, Greg Randolph. “Truck owners with bed caps will find CargoGlide especially useful, as it enables them to easily and safely use and access every corner truck bed.”

More than a standalone storage solution, the CargoGlide sliding tray is designed to complement the DECKED Drawer System. Bolting CargoGlide atop the DECKED Drawer System is the ultimate solution in truck-bed utility. Owners can store heavy equipment on the CargoGlide. Beneath it, they can secure tools and smaller gear inside the Drawer System’s two full-length drawers.

CargoGlide is a particularly vital choice for any truck owner with a cap installed over their truck bed. That’s because CargoGlide lets owners easily use every inch of their bed with the accessible sliding tray -- eliminating the need to climb into, and around, a height-restricted bed to find the right tool.

DECKED CargoGlide comes in 1,000-, 1,500-, and 2,200-pound payload options, with either 75% or 100% extension of the tray available. The 1,000-lb, 75% extension option is compatible with the DECKED Drawer System, enabling a truly multifaceted approach to organizing and accessing gear.

CargoGlide is available for most full-size and mid-size trucks and cargo vans. Constructed from powder coated American steel and industrial, marine-grade plywood coated with a thermoplastic top sheet, CargoGlide is rugged enough for the harshest work environments. That means it will perform flawlessly on the jobsite as well as the great outdoors. Gear can be easily secured to the CargoGlide by affixing straps to the side rails with infinitely adjustable cargo tie down locations.

CargoGlide is also easy to install — 30 minutes is all it takes. It comes pre-assembled, so installation is as simple as drilling according to the instructions, installing the hardware and bolting it down. CargoGlide is available to purchase online now at <https://decked.com/> as well as nationwide through DECKED's network of 2,500 dealers.

Model	Extension Length	Payload	MSRP
CG 1000	70%	1,000 lbs.	\$1,331.39
CG1000XL	100%	1,000 lbs.	\$2,183.09
CG1500	70%	1,500 lbs.	\$1,722.54
CG 1500XL	100%	1,500 lbs.	\$2,823.06
CG2200XL	100%	2,200 lbs.	\$2,971.46

INNOVATIONS

Faster Safer Workspace

iTOOLco.

ALL JACK™

Increase productivity and decrease fatigue using iTOOLco's All Jack™. Install pipe, lights, cabinets, drywall, temporary dust barriers and much more with this innovative jack designed to lift and support the weight of your workpiece while you anchor it into position.

High ceilings and ladder work are not a problem for this dynamic tool. Reach from 58" to a staggering height of 13'6". The industrial gas shock ensures a snug, stable support that stays in place while you complete the installation. Once your workpiece is secured into place, simply remove the All Jack™ by releasing the shock. More powerful than a typical support pole, the All Jack's gas shock can handle your most challenging jobs.

SCAN QR

CORDLESS CANNON 3K™

Speed, Versatility, and performance are all yours with iTOOLco's Cordless Cannon 3K™. This portable 3,000 lb. puller is intuitively designed to handle all of your day-to-day wire pulls.

The built-in capstan switch automatically turns the puller on and off. Simply tug on the rope to start the pull and slack off the rope to shut it down.

Delivers dynamic performance in remote locations or areas where power is not yet available.

The high-capacity rechargeable battery is long-lasting and delivers maximum power. The Cannon 3K™ will even chew through a medium size run of 4 - 3/5 in 3" conduit with 4 - 90s 220' long in record time and still have half the battery life for your next pull.

CONEXPO-CON/AGG, IFPE Bring Success to Firms Globally

CONEXPO-CON/AGG, and the co-located International Fluid Power Exposition (IFPE), slated to return to Las Vegas March 14-18, 2023, have gained a reputation for bringing results to global attendees and exhibitors, and is working to expand that reputation for the 2023 show.

Considered one of the “Big 3” construction equipment trade shows globally, with the others held in Germany and France, CONEXPO-CON/AGG and IFPE is the largest construction trade show in the western hemisphere and is expected to bring in more than 130,000 attendees to see 2.7 million square feet of exhibits at the Las Vegas Convention Center.

“For us, and coming from Spain, CONEXPO-CON/AGG is the best platform to reach customers from the U.S. as well as from the world, especially from Central and South America,” said Jorge Cuartero, director general of ANMOPYC, the Spanish association of manufacturers of construction and mining equipment based in Zaragoza, Spain. “The show features the latest equipment, products, services and technologies for the construction industry, as well as industry-leading education. And we know it will be the event of the year in our sector for 2023.”

One of the biggest values for international exhibitors and attendees is the International Trade Center, which

Providing strength & stability, with a twist.

offers attendees and exhibitors the opportunity to meet and network with industry peers from around the world. The International Trade Center is hosted by the Association of Equipment Manufacturers (AEM), co-owner of CONEXPO-CON/AGG and IFPE.

“If you haven’t already, now is the time to start putting your CONEXPO-CON/AGG and IFPE plans together,” said CONEXPO-CON/AGG Show Director Wuesthoff. “Whether you are an exhibitor or attendee, start planning now. Knowing who from your team will get the most value out of coming, and what you hope to accomplish is the best way to make this show a positive investment in your company’s future.”

Machinery parts provider Blumaq, based in Vall de Uxó on Spain’s Mediterranean coast, said CONEXPO-CON/AGG is an “unmissable event.”

“Blumaq’s participation in the 2020 show has resulted in an increase in visibility and sales for our brand,” said Juan Manuel Buils, marketing department manager at Blumaq. “We have exhibited before at CONEXPO-CON/AGG, the best and largest showcase in the American heavy machinery and spare parts market, and as a result, we have generated a large number of leads and even closed sales at the fair itself.”

From Leicester, in the U.K.’s Midlands region, electrical and fabrication specialists Ventola Projects, Ltd. came away from the 2020 show with six figures in orders, and a huge jump in export business.

“We departed Las Vegas in 2020 with a confirmed order of \$60,000, and further orders totaling more than \$100,000 weeks later,” said Ventola Projects Managing Director Mick Ventola. “We have taken our exporting from approximately 40 percent of our turnover in 2019/20 to now almost 90 percent in 2021/22. Our forecasts show our turnover to continue an upward trend, even during these uncertain times.”

CONEXPO-CON/AGG and IFPE 2020, hosted 130,000 in registered attendance, with 86 percent of attendees serving in decision-making roles.

“It is such a huge event, of people and organizations, acres of exhibits and dozens of mini events inside the venue. Even if you have a show plan built, if you are an international exhibitor or attendee, connect with

The New Standard for Linemen

At Tallman Equipment, our priority is to set the standard in the electric transmission and distribution industry with an all-inclusive approach to serving our customers. Our vision to deliver a trio of quality, convenience, and reliability is driven by listening and adapting to the needs of our customers. As the industry changes, so does Tallman. As a result, Tallman Equipment has become a unique company within our industry offering a full range of professional services including tool sales, product distribution, rentals, and repair. Tallman is already a trusted name in stringing blocks, cable assemblies, fiberglass, and rope products – and we are excited to announce the addition of our new Rubber Goods Testing Lab.

Our Services Include:

Groundset & Jumperset Manufacturing, Repair & Refurbishing

Transformer Sling Manufacturing & Rope Repair

Battery Power Tool & Equipment Repair

Fiberglass Tool Testing, Repair & Refinishing

Tool & Equipment Rental

Rubber Goods Testing & Refurbishment

the AEM-International Trade Centre team before, or on Day 1,” said Kim MacDonald of professional services firm 13 FACTORS, based in Halifax, Nova Scotia, Canada. “The centre became my go-to hub, and I am looking forward to using it even more in 2023!”

About CONEXPO-CON/AGG

CONEXPO-CON/AGG is the largest construction trade show in North America and the premier event that connects professionals from every major construction sector. Held every three years, CONEXPO-CON/AGG takes the construction industry to the next level by helping construction professionals elevate their industry expertise, experience the newest equipment and products through demonstrations and industry-leading education, make new professional connections, and grow their own marketability within the industry. The next CONEXPO-CON/AGG will be held March 14-18, 2023 in Las Vegas, Nevada. For more information on CONEXPO-CON/AGG, visit <https://www.conexpoconagg.com>.

About the International Fluid Power Exposition (IFPE)

IFPE, the International Fluid Power Exposition, is the leading North American exhibition bringing together the fluid power, power transmission and motion control industries. The next IFPE, co-located with CONEXPO-CON/AGG, will be held March 14-18, 2023, at the Las Vegas Convention Center.

About the Association of Equipment Manufacturers (AEM)

AEM is the North America-based international trade group representing off-road equipment manufacturers and suppliers with more than 1,000 companies and more than 200 product lines in the agriculture and construction-related industry sectors worldwide. The equipment manufacturing industry in the United States supports 2.8 million jobs and contributes roughly \$288 billion to the economy every year.
