## Mack® LR and Mack TerraPro® Models Now Available with HAULMAXX EX Suspension

Mack Trucks announced today that the Mack® LR and Mack TerraPro® models are available to order with the optional HAULMAXX EX suspension system, improving capability, uptime, and total cost of ownership.

“The newly available HAULMAXX EX suspension on our cab-over models gives our customers more choice and offers increased capability offering capacities of 40,000 pounds, 46,000 pounds, and now 52,000 pounds, with up to a 75,000-pound site rating,” said Josh Seiferth, Mack Trucks cabover product manager. “The heavy-duty rubber suspension also increases durability and maximizes the life of the components for improved uptime and total cost of ownership for the customer.”

The HAULMAXX EX features a unique progressive load spring system that easily adjusts to the load for an enhanced combination of empty-ride quality and loaded stability. Angled bolster springs and unique progressive load springs provide exceptional stability for demanding applications.

The suspension design delivers an improved ride, reduced road shock, wheel hop and vibrations to the vehicle for longer service life and fewer repairs. The design requires no lubrication, has fewer bushings to maintain and features an integrated jounce stop that protects the rubber components from compression, ultimately reinforcing the vehicle’s durability.

**Down**

Mack LR and TerraPro models equipped with the HAULMAXX EX suspension offer increased tire clearance and up to 17 inches of diagonal wheel articulation for excellent off-road mobility on the challenging terrain often encountered by vocational trucks. The tire clearance was improved on the HAULMAXX EX to include packages with 315 tires and nine-inch steel wheels, while continuing to meet the SAE standard for tire chain clearance.

The Mack LR model is designed to meet the challenges of refuse customers needing superior maneuverability, increased productivity, and improved visibility. The LR model comes standard with the Mack 11-liter MP@7 engine, delivering up to 355 horsepower and 1,260 lb.-ft. of torque.

Mack's rugged TerraPro model enables customers to pack maximum payload into a compact footprint. The TerraPro is available with the Mack MP7 and 13-liter Mack MP@8 engine with up to 505 horsepower and 1,869 lb.-ft. of torque, as well as the Mack mDRIVE™ automated manual transmission.

The HAULMAXX EX suspension replaces the HAULMAXX and HN suspensions previously available on these models.

Both the LR and TerraPro models are standard with Mack GuardDog® Connect integrated telematics solution that proactively monitors the truck to help prevent unplanned downtime events.

For more information, visit your local Mack Trucks dealer or [www.macktrucks.com](http://www.macktrucks.com) •

## The Countdown Begins Now: CONEXPO-CON/AGG & IFPE 2023

---

With the next CONEXPO-CON/AGG and International Fluid Power Exposition (IFPE), being just a year away, construction pros can expect a next-level experience when they arrive at the Las Vegas Convention Center, March 14-18, 2023.

The most obvious project underway during the last show was the construction of the new West Hall and adjacent Diamond Lot on the site of the old Gold Lot. The other was the Tesla-powered people mover, now called the “LVCC Loop,” underground transport project being built under the LVCC. Now that both projects are complete, CONEXPO-CON/AGG, and the co-located IFPE will make full use of both.

“AEM and our show committees of industry leaders are working to take advantage of everything that has changed in Las Vegas to deliver a top-notch event delivering the latest innovations and best practices to help construction pros take their businesses and careers to the next level,” said Dana Wuesthoff, show director of CONEXPO-CON/AGG 2023. “Between the West Hall and Diamond Lot bringing a

lot of displays closer to the rest of the show as well as serving as a connector to the Festival Lot, and the LVCC Loop making it effortless to get across the entire Las Vegas Convention Center, it's never been easier for attendees to see everything they want to learn about when they get there."

According to the Las Vegas Convention Center, the new West Hall provides an additional 1.4 million square feet of indoor space, including 600,000 square feet of "technologically advanced" exhibit space. CONEXPO-CON/AGG is making West Hall a hub for earthmoving and materials handling displays in 2023, the largest of which include Case, K-Tec/Ashland, Hitachi and Hyundai.

"When you attend CONEXPO-CON/AGG, you are able to see an item, touch it, sit in it, sometimes operate it and discuss it with the engineers and manufacturers," said Brian Dietz, of Bob Dietz & Sons, an excavating contractor in New York's Hudson Valley. "When you walk up to a machine and talk to someone, you get answers that you are not going to get anywhere else. No local equipment dealer that can provide that. The event also helps you stay on top of the latest trending technology."

The Diamond Lot, attached to the west of West Hall, will have a large variety of exhibits from Business Operations to Hauling to Portable Power to Underground Construction. The largest exhibitors in this area include Bauer Equipment, CZM Foundation Equipment, Trail King, and Hammer & Steel.

## Hydraulic Detachable Gooseneck

For more than two decades, our Hydraulic Detachable Gooseneck Trailer has been North America's bestselling detachable lowboy for construction professionals—and for good reason.

It's engineered to make unhooking, loading and unloading, and hooking up again a simple one-person operation.

The LVCC Loop, which features new electric Tesla vehicles carrying attendees around the LVCC, is the other major addition to the show. With stops in the South Hall (providing easy access to both floors of South Hall and IFPE exhibits), running to Central Hall (providing access to Central and North Halls) and finishing at Diamond Lot (providing access to West Hall), CONEXPO-CON/AGG and IFPE attendees can save themselves a lot of steps getting around. And with shuttle service carrying construction pros from West Hall to the Festival Lot where the largest exhibits at the show are, seeing the whole show has never been easier.

"In the construction business, everything we talk about is benchmarked by the last CONEXPO-CON/AGG we went to," said Bruce Barnhart, owner of Barnhart's Custom Services, an excavating contractor in the Eastern Iowa Corridor. "It's like everything revolves around CONEXPO-CON/AGG. Even our conversations with our employees years after the show connect back to what we saw and learned at the show. Also, the hospitality by the manufacturers is a major highlight. At CONEXPO-CON/AGG you have fun, and you learn." •

## Be First in Line: Registration Now Open for CONEXPO-CON/AGG, IFPE

---

*You'll Need All Five Days to See What's New*

Registration is now open for CONEXPO-CON/AGG and the International Fluid Power Exposition (IFPE), running March 14-18, 2023 at the Las Vegas Convention Center and Las Vegas Festival Grounds in Las Vegas, Nevada. North America's largest construction trade show will feature more than 1,800 exhibitors across over 2.7 million square feet, showcasing the most advanced equipment and construction industry innovations.

"We are thrilled to return to Las Vegas in March of 2023 to bring the construction industry together. If you're a construction professional, you won't want to miss this opportunity to see the industry in action and learn new ways to take your business to the next level," said CONEXPO-CON/AGG Show Director Dana Wuesthoff. "No other show brings together as many segments of the construction and aggregates industries in one place. Be sure to register early so you can take advantage of the best badge and travel rates."

When you register at either [CONEXPOCONAGG.com](https://CONEXPOCONAGG.com) or [IFPE.com](https://IFPE.com), you can set up your badge, education selections, and hotel accommodations all in one place.

The Festival Lot returns for 2023 as the biggest outdoor display area, featuring earthmoving and lifting (aerial and crane) equipment. It is better connected to the rest of the show via the brand-new West Hall and Dia-

mond Lot, which were under construction during the 2020 show. Also complete for the upcoming show, the Tesla-powered LVCC Loop, an underground tunnel hosting Tesla vehicles running in a loop from the Diamond Lot to the Central Hall and the South Hall, home of IFPE.

“IFPE is the heart and soul of the equipment manufacturing industry,” said IFPE Show Director John Rozum. “Because we feature the fluid power, power transmission and motion control technology that makes everything in the industry move. In addition to that, IFPE education sessions and Fluid Power Workshops qualify for Professional Development Hours.”

The education component of CONEXPO-CON/AGG is top notch as well. With 170+ sessions covering everything from aggregates to technology solutions, the comprehensive education at the show is the leading source for those in the industry to obtain cutting-edge information for today’s business chal-

lenges and opportunities. There are several education packages to choose from while registering for the show from single sessions to multi-day passes. New this year are a Business Bootcamp and a Leadership Series that include recommended sessions on Strategic Decision Making for Increased Margins, Financial Essentials for Non-Financial Leaders, and How to be a Construction Leader Worth Following, among other tailored courses.

Attendees need to plan for and get ready to talk, test, and connect with today’s leading construction experts. The full list of exhibitors is available to help plan your experience and meet the manufacturers and innovators whose products and services can enhance your business.

After you’ve registered and before your plane leaves for Vegas, make sure you subscribe to CONEXPO-CON/AGG 365 to get the latest updates on the show and the industry all in one place. •

# September 9 Early Bird Registration Deadline for Equip Exposition Rapidly Approaching

## Register now before prices double on September 10

Don't miss the Early Bird registration deadline for Equip Exposition, September 9, 2022. For only \$20, landscapers, hardscapers and dealers should attend the international landscape, outdoor living and equipment exposition, which is one of the most unique trade shows in the United States. After September 9, the price doubles.

Equip Exposition will be held October 18 - 21, 2022 in Louisville, Kentucky at the Kentucky Exposition Center (KEC). The show draws tens of thousands of attendees and 1,000+ exhibits where attendees can "test before they invest" the newest and best outdoor power equipment in the expanded 30-acre outdoor Demo Yard and 675,000 square feet of indoor exhibit space.

"Expo offers answers to landscapers and dealers who are facing unprecedented challenges in their business today around labor, supply, and new, mandated regulatory requirements around equipment," says Kris Kiser, President & CEO of the Outdoor Power Equipment Institute (OPEI), which owns

## Unitrex XS™ Max Wear. Unmatched performance in the field and in the boardroom.

Electric line stringing is easier and more economical with Unitrex™. Made with a core of Honeywell Spectra®, it is up to 10 times lighter than steel, while delivering comparable strength. The urethane-coated polyester jacket provides excellent abrasion resistance for great productivity that lasts.

Performance. Passion. Possibilities.

77 Industrial Park Road | Saco, Maine 04072 | p (207) 282-3396, f (207) 282-4620

Equip Exposition. "This trade show is the best place to see what's new, meet others in the same field, try out equipment never shown before, and stay competitive."

Equip Exposition offers a host of educational opportunities that can be added to an attendee's registration, including tracks on:

- Labor and finding people
- Leadership succession and finding your number two
- Upcoming regulatory requirements mandating what equipment landscapers can use
- The latest software, robotics, interconnected products and more
- Expanding into other areas of business such as outdoor lighting, tree care, pool and spa, and hardscaping

Attendees have until 11:59 p.m. on September 9, 2022 to register for \$20 at EquipExposition.com. On September 10, 2022 registration fees will double to \$40. On October 15, 2022, prices rise to \$80. Additionally:

- Landscape professional workshops are \$85 each
- Hardscape professional workshops are \$65 each
- Technician training is \$45 per course
- The Hardscape North America demonstration upgrade is \$85

# *The New Standard for Linemen*

At Tallman Equipment, our priority is to set the standard in the electric transmission and distribution industry with an all-inclusive approach to serving our customers. Our vision to deliver a trio of quality, convenience, and reliability is driven by listening and adapting to the needs of our customers. As the industry changes, so does Tallman. As a result, Tallman Equipment has become a unique company within our industry offering a full range of professional services including tool sales, product distribution, rentals, and repair. Tallman is already a trusted name in stringing blocks, cable assemblies, fiberglass, and rope products – and we are excited to announce the addition of our new Rubber Goods Testing Lab.

## *Our Services Include:*

**Groundset & Jumperset Manufacturing, Repair & Refurbishing**

**Transformer Sling Manufacturing & Rope Repair**

**Battery Power Tool & Equipment Repair**

**Fiberglass Tool Testing, Repair & Refinishing**

**Tool & Equipment Rental**

**Rubber Goods Testing & Refurbishment**

*Trust* **TALLMAN**

# INNOVATIONS

## Faster Safer Workspace

# iTOOLco.

## ALL JACK™

Increase productivity and decrease fatigue using iTOOLco's All Jack™. Install pipe, lights, cabinets, drywall, temporary dust barriers and much more with this innovative jack designed to lift and support the weight of your workpiece while you anchor it into position.

High ceilings and ladder work are not a problem for this dynamic tool. Reach from 58" to a staggering height of 13'6". The industrial gas shock ensures a snug, stable support that stays in place while you complete the installation. Once your workpiece is secured into place, simply remove the All Jack™ by releasing the shock. More powerful than a typical support pole, the All Jack's gas shock can handle your most challenging jobs.

## CORDLESS CANNON 3K™

Speed, Versatility, and performance are all yours with iTOOLco's Cordless Cannon 3K™. This portable 3,000 lb. puller is intuitively designed to handle all of your day-to-day wire pulls.

The built-in capstan switch automatically turns the puller on and off. Simply tug on the rope to start the pull and slack off the rope to shut it down.

Delivers dynamic performance in remote locations or areas where power is not yet available.

The high-capacity rechargeable battery is long-lasting and delivers maximum power. The Cannon 3K™ will even chew through a medium size run of 4 - 3/5 in 3" conduit with 4 - 90s 220' long in record time and still have half the battery life for your next pull.
