Steel Tracks available to fit any articulating tractor.

Roof Maintenance Safety

Roof maintenance is a critical aspect of home and building upkeep. It ensures the longevity of the roof and protects the structure from potential damages. However, roof maintenance can be hazardous if proper safety measures are not taken. This editorial discusses the importance of safety in roof maintenance and provides guidelines for safe practices.

Importance of Roof Maintenance Safety

- Preventing Accidents: Roof work often involves heights and unstable surfaces, increasing the risk of falls and injuries.
- Protecting Workers: Whether it's homeowners or professional contractors, safety should be a top priority to prevent accidents.
- Enhancing Longevity: Safe maintenance practices not only protect individuals but also ensure that the roof remains in good condition for a longer time.

Common Risks in Roof Maintenance

- Falls: The leading cause of injuries in roof work.
- Slips and Trips: Wet or uneven surfaces can lead to accidents.
- Electrical Hazards: Proximity to power lines can pose serious threats.
- Weather Conditions: Rain, snow, and wind can make roofs extremely dangerous.

Safety Guidelines for Roof Maintenance

1. Use Proper Safety Gear
 - Helmets: Protect against head injuries.
 - Non-slip Footwear: Provides better traction on the roof.
 - Harnesses: For securing oneself to prevent falls.
2. Inspect the Roof Before Work
 - Check for stability and any signs of damage.
 - Ensure that the roof is dry and clear of debris.
3. Use Ladders Safely
 - Ensure ladders are on stable ground.
 - Maintain three points of contact when climbing.
4. Plan for Weather Conditions
 - Avoid working in high winds, rain, or icy conditions.
 - Monitor weather forecasts before scheduling maintenance.
5. Work in Pairs
 - Having a partner can enhance safety and provide assistance in case of emergencies.
6. Follow Manufacturer Guidelines
 - Always adhere to the recommendations provided by roofing material manufacturers.

Conclusion

Roof maintenance is essential for the health of any building, but it should never compromise safety. By following the outlined safety guidelines, individuals can minimize risks and ensure that roof maintenance is conducted safely and effectively. Remember, safety first leads to a secure and well-maintained roof!

Call to Action

- Stay Informed: Regularly update yourself on safety practices.
- Educate Others: Share safety tips with anyone involved in roof maintenance.
- Hire Professionals: When in doubt, consider hiring trained professionals for roof maintenance tasks.

Bobcat Set to Showcase Versatility and Performance at The Utility Expo 2025

Bobcat Company is showcasing its versatile equipment and attachments at The Utility Expo 2025 in Louisville, Kentucky. The company will be featuring recent additions to its lineup, including the MT120 mini track loader and a new land management package for the T86 compact track loader. Attendees can get hands-on experience with various machines through demonstrations and challenges designed to highlight their performance and precision. In addition to loaders, the display will also include utility vehicles, portable power solutions and various attachments.

Bobcat Company, a global compact equipment, innovation and worksite solutions brand, is set to make a powerful impact at The Utility Expo 2025. From October 7-9, attendees are invited to visit Bobcat at booth K129 at the Kentucky Exposition Center in Louisville, Kentucky.

Alongside its trusted lineup, Bobcat will showcase some of its most recent additions—including the MT120 mini track loader and the land management package, exclusive to the T86 compact track loader. Visitors can also explore an expansive product and attachment lineup on display and with hands-on demonstrations showcasing end-to-end solutions for the most demanding job sites.

Booth Highlights

MT120 Mini Track Loader

The MT120 boasts a class-leading 1,200-pound rated operating capacity and an impressive 88.2-inch lift height and reach. At just 36 inches wide, the MT120 excels in tight spaces

while its smooth, precise pilot controls and premium ride-on platform ensure operator comfort. With more than 20 compatible attachment categories, operators can use their MT120 for digging, ground preparation, utility installation, breaking up and removing concrete, trenching and much more.

T86 Compact Track Loader Land Management Package

The land management package, an exclusive offering for the T86 compact track loader includes premium features like a rearview camera, reversing fan, advanced 7-inch touch display, and a dedicated land management door. Additional top-of-the-line performance features include a Level II FOPS, headlight/taillight and exhaust guards, tubeline covers, and polycarbonate rear and side windows. The T86 land management package combines power, technology, and protection to optimize your land management operations.

UV34XL Utility Vehicle

For jobs that require operators to haul more materials, tow heavier loads and transport more people, the Bobcat UV34XL utility vehicle is an ideal solution. The 39.9-hp utility vehicle offers seating for six people and includes a 1,000cc, two-cylinder SOHC engine that delivers high-performance power, maximum reliability and durability. The UV34XL will be shown with the Limited accessory package and SP9 boxspreader.

Disc Mulcher

The 60" disc mulcher is a powerful land-clearing attachment that utilizes a flywheel design to store kinetic energy, allowing it to effortlessly cut down trees up to 14 inches in diameter and shred them into mulch. This versatile tool is ideal for a variety of tasks, including utility line and right-of-way maintenance, site preparation, and general vegetation management. With its hardened-steel

knives and multiple operating techniques, the disc mulcher is a highly effective tool for clearing land.

Landplane

The 86" landplane is a versatile attachment designed for grading, leveling, and preparing surfaces. It can easily break up hard ground, pulverize soil clods, and sift out large rocks, whether moving forward or in reverse. This tool is also ideal for peeling sod, aerating soil for seeding, and transporting materials around a worksite, making it a highly effective and multi-functional land preparation tool.

The following equipment, solutions and attachments will also be on display in the booth:

Compact Equipment

- T76 compact track loader
- UW56 Toolcat utility work machine

Portable Power Solutions

- PA425v portable air compressor
- PA185vp portable air compressor
- PG40 portable generator

Light Compaction

- R68P rammer

Trench Roller Attachments

- 84" angle broom
- NB140 nitrogen breaker
- VP12 vibratory plow
- Root Grapple

Experience Bobcat Power Firsthand: Test Your Skills with Demo Challenges

Whatever the challenge, Bobcat is ready to meet it. Put your skills to the test and see how the Bobcat lineup empowers you to confidently conquer any job with unmatched versatility and power.

Maddox is the one-stop shop for your transformer needs

Founded by a team of industry veterans focused exclusively on the transformer and transformer-related needs of industrial and commercial clients.

Sell

Maddox stocks and sells the highest quality transformers from dry types and padmounts to substations.

Rent

With thousands of units in stock, Maddox rents out transformers for the temporary power needs of customers across North America.

Repair

With shops on both coasts Maddox inspects, tests, and repairs transformers to ensure that they are in top working condition.

Purchase

We offer a great price that includes handling all the transportation and environmental issue.

MT100 and MT120 Mini Track Loaders: See the different lift heights of our mini track loaders by dumping material over the limbo bars, demonstrating their lift height and agility in tight spaces.

T66 Compact Track Loader: Experience the T66's impressive controllability and precision by using a 74" industrial bucket grapple to stack tires in a

challenging pyramid or tower.

E20 Compact Excavator: Discover how "big performance comes in small packages" as you maneuver the E20's retractable undercarriage through a gate.

E38 Compact Excavator: Test your precision on the E38 equipped with a trenching bucket's and enhanced Depth Check System, using the display screen to achieve pre-defined dig depths.

"As a safety professional, you always want your workers to have access to leading edge safety tools that improve safety and focus. Working with **COOLSHIRT SYSTEMS** over the past two years allowed me to help design a tool **by lineman for lineman.**"

The **A.R.C. Hybrid Cooling System** by **COOLSHIRT SYSTEMS** allows linemen to remain more focused and less fatigued by reducing their core body temperature in extreme environments, therefore reducing the possibility of unintended accidents."

-James "Jim" Bonner
Compliance Coordinator- Retired
Alabama Power

A.R.C. Hybrid Cooling System

Complete Arc Rated Portable Cooling Solution

Developed in conjunction with major power companies for use in extreme heat conditions, the **A.R.C. Hybrid Cooling System** uses liquid cooling to reduce fatigue, injury, and heat stress related illness.

Designed specifically for use by linemen, the **A.R.C. Hybrid Cooling System** features a compact design with a custom woven strap mounting system. The use of S-hooks offers the versatility of mounting inside or outside of the bucket. The system includes our mobile ice based cooler, a 7 hour lithium ion battery with charger and a **CAT 2, 12 CAL** rated Liquid Cooled Vest for **70E Arc Flash** protection.

Designed with portability in mind, measuring **6" x 6" x 20"** and weighing in at **less than 10 lbs dry**, the unit is entirely self-contained and built to last with a 20,000 hour pump.

Deere & Company Announces Key Leadership Changes

Deere & Company has announced key leadership changes as it continues to advance its Smart Industrial Strategy to deliver intelligent, connected machines and solutions that enhance customer economic value.

“We’re focused on building an experienced, purpose-driven leadership team dedicated to improving our customers’ success,” said John May, chairman and CEO of Deere & Company. “Each of these leaders brings extensive expertise, a shared vision for innovation, and a deep commitment to delivering value to our customers worldwide.”

Effective November 3, Deanna Kovar has been appointed president, Worldwide Agriculture & Turf Division: Production and Precision Ag, as well as the Americas and Australia markets. In this role, she will have responsibility for major equipment and technology solutions for production-scale agriculture, including large tractors, as well as harvesting and crop care equipment. Kovar was previously president of the company’s Small Ag & Turf business.

USA
MADE

The Solution
To stak, store,
protect, and
pull wire!

Stak: Up to five units tall. Easy two handed ergonomic carry from truck or jobsite.

Protect: Reduces wire damage from tools and personnel. Made of non-conductive polymer.

Store: 500' spools of 14, 12 & 10 AWG wire easily for inventory control. Polymer design reduces damage to finished surfaces on the job.

Pull: Pull wire smoothly from the top or the sides when in the Stak. Support large spools with molded V-Grooves.

Justin Rose will assume the role of president, Worldwide Agriculture & Turf Division: Small Agriculture and Turf, including responsibility for the Europe, Africa, and Asia markets. Rose will be responsible for equipment and technology solu-

tions tailored to support small agricultural and turf customers worldwide, including small tractors, compact utility tractors, hay and forage equipment, and turf care equipment. He recently served as president of Lifecycle

Solutions, Supply Management, and Customer Success for Deere.

In addition, Cory Reed has been named president, Lifecycle Solutions, Supply Management, and Customer Success. Reed will manage Deere's global aftermarket, customer support, supply chain, precision upgrade, and business transformation initiatives, focusing on delivering exceptional value and support for customers worldwide. Previously, he was president of the company's Production and Precision Ag business.

Company Profile: Rome Plows

Company Name: Rome Plow Company

Headquarters: Cedartown, Georgia, USA

Founded: 1932

Industry: Agricultural and Industrial Equipment Manufacturing

Overview

Rome Plow Company, commonly known as Rome Plows, is a leading manufacturer of heavy-duty tillage and land-clearing equipment. Since its founding in 1932, the company has specialized in producing some of the most durable and powerful plows in the world. Best known for their rugged disc plows, Rome Plows are widely used across agriculture, forestry, construction, and military applications, earning the reputation as “*The World’s Largest Independent Manufacturer of Tillage Equipment.*”

History

Rome Plow was established in Cedartown, Georgia, during the early 20th century, initially serving

the needs of farmers in the Southeastern United States. The company quickly grew into an internationally recognized brand by pioneering robust plows and earthmoving equipment capable of handling tough soil, dense vegetation, and large-scale land development projects.

During the Vietnam War, Rome Plows became especially notable when the U.S. military adopted their massive land-clearing plows, mounted on armored bulldozers, to cut through dense jungles. This cemented the company’s reputation for producing some of the toughest land-clearing equipment in the world.

Products and Services

Rome Plow designs and manufactures a wide range of heavy-duty equipment, including:

- **Disc Plows & Harrows** – Engineered for tough soil conditions and large-scale farming.
- **Rome Tillage Equipment** – Specialized implements for seedbed preparation and soil

- management.
- **Forestry & Construction Plows** – Heavy plows for land clearing, logging, and earthmoving.
- **Military-Grade Plows** – Adapted for defense and large-scale clearing operations.
- **Replacement Parts & Service** – Long-term support for equipment performance and durability.

Market & Customers

Rome Plows serves a global customer base in over 50 countries, supporting industries such as:

- Commercial Agriculture
- Forestry and Logging
- Construction and Infrastructure Development
- Military and Defense
- Land Reclamation and Environmental Management

Its customers range from small-scale farmers to large agricultural enterprises, logging companies,

construction firms, and government agencies.

Reputation & Strengths

- **Durability:** Equipment built to last decades under extreme conditions.
- **Global Reach:** Products shipped and supported worldwide.
- **Legacy:** Nearly a century of continuous innovation and reliability.
- **Specialization:** Focused expertise in tillage and land-clearing solutions.

Mission Statement

Rome Plow Company is dedicated to providing the most reliable and effective tillage and land-clearing equipment available, helping industries worldwide transform tough terrain into usable land with efficiency and durability.
