Brass Knuckle®, Application-Specific Protective Gloves Are Easy to Source

User-friendly selection tools take the guesswork out of stocking

The hand is the leading body part injured at work and treated in hospital emergency departments, with acute hand and finger injuries sending over one million workers to the emergency room annually in the United States. Brass Knuckle® offers a complete line of gloves for maximum protection along with comfort and dexterity — and the company strives to make specifying gloves easier, with robust selection tools that make narrowing down glove choices a breeze.

In its effort to help make gloves fit better, Brass Knuckle shines in the “construction of the glove.” Gloves are tested and measured against the following criteria: longer wear life, maximum dexterity, defined flex points, plus a wide range of protective features. Application-specific glove construction is critical. Brass Knuckle leads in understanding fibers, coatings, special features, and other material construction attributes that blend protection and value.

Brass Knuckle offers three signature, application-specific glove lines, with multiple gradient options within each line. SmartCut™ gloves are cut-resistant from ANSI cut 2 through 5 and from 12 through 18 gauge. The

jescoHYDRATILT™ DUMPERS

HYDRAULICALLY CONTROLLED HOPPERS

These units are ideal where control of the quantity of material dumped or the rate of discharge is critical. They operate off the hydraulic system of your forklift and come complete with male quick-disconnect hoses for easy attachment to the forklift.

Fall Protection for Life and Compliance

SAFETYRAILCOMPANY.COM | 888.434.2720

Combined, the companies accumulated 16 awards and honors this past year

JLG Industries, Inc., an Oshkosh Corporation company [NYSE: OSK] and a leading global manufacturer of mobile elevating work platforms (MEWPs) and telehandlers, received 12 industry awards in 2022, highlighting the company's most recent innovative product introductions and JLG® equipment with high long-term resale value.

RER magazine honored JLG with two Innovative Product Awards. A Technology Enhancements award for the company's suite of telehandler accessory offerings and a Miscellaneous award for JLG's "Access Your World" virtual experience.

EC&M magazine named the JLG DaVinci® AE1932 all-electric scissor lift its Product of the Year in the Construction Equipment Category. The Construction Machinery ME Awards also awarded the DaVinci lift as its Electric Machinery of the Year.

JLG won two International Awards for Powered Access (IAPA) this past year. The DaVinci lift was again distinguished as the Product of the Year, as was the company's 670SJ self-leveling boom lift. The 2022 Leadership in Lifting Equipment and Aerial Platforms (LLEAP) Awards also recognized JLG's 670SJ self-leveling boom lift, giving it a Gold Award — the highest honor. JLG's DaVinciGo App received a Silver LLEAP Award.

The JLG Next-Gen Augmented Reality App received a 2022 Rental Editor's Choice Award, and the company's new line of Rotating Telehandlers was named a Construction Equipment Top 100 Winner, as well as a 2022 Top Introduction by Heavy Equipment Guide.

And last, but not least, EquipmentWatch's annual Highest Retained Value Awards this year included the JLG H340AJ hybrid boom lift and FT70 Liftpod model.

JLG's parent company, Oshkosh Corporation, received four industry awards in 2022. The company was recently named one of America's Most Responsible Companies by Newsweek, the fourth consecutive year it has been awarded this honor. In addition to Newsweek's recognition, Oshkosh was named one of Fortune's 2022 World's Most Admired Companies, a Leading Disability Employer 2022 by the National Organization on Disability and one of the World's Most Ethical Companies by Ethisphere™ for seven consecutive years.

To learn more about Oshkosh Corporation, please visit oshkoshcorp.com. For more information on JLG products and services, please visit [JLG.com](https://jlg.com).

About JLG Industries, Inc.

JLG Industries, Inc. is a world-leading designer, manufacturer, and marketer of access equipment. Hastings' Product Line Features Body Rescue Stick

As a worldwide manufacturer of hot line tools and equipment, Hastings understands that every day has the potential to bring the unexpected to lineworkers. That is why Hastings designs every product, including our Body Rescue Hook Stick, with safety in mind.

Hastings' Body Rescue Hook Stick is an 18-inch open hook mounted on a 1 1/4-inch O.D. fiberglass pole that can be used for emergency rescue of injured personnel.

Each stick comes with either a 6- or 8-foot pole. Optional fittings for universal end and 1 1/4-inch spliced end sticks are available as well.

Additional product information is available on page 114 of Hastings' online catalog.

For more information about Hastings and its offerings, call 269.945.9541 or visit www.hfgp.com •

Bellofram Skinless Silicone Sponge Sheeting Beats Polyurethane Foam at High Temperatures

High performance up to 400° F, doesn't get brittle or crumble

When sourcing material for sealing and gasketing, cushioning, or vibration control, why choose a product that withers in the heat? Skinless silicone sponge sheeting from Bellofram Silicones does everything polyurethane foam can do – all while withstanding much higher temperatures. Polyurethane foam becomes brittle or crumbles when exposed to high temperatures, but Bellofram's skinless silicone sponge sheeting offers high performance in temps up to and exceeding 400° F (also as low as -103° F). Polyurethane foam simply can't compete.

Because Bellofram silicone sponge sheeting is skived from buns, it is skinless and able to meet some of the same density levels of polyurethane foam.

You never sacrifice performance with skinless silicone sponge from Bellofram. It offers outstanding recovery after compression. It is ideal for gasketing and sealing, cushioning, and vibration management applications, and displays strong chemical resistance.

Available in varying degrees of thickness, hardness, or with optional additives, it's easy to use skinless silicone sponge sheeting in place of any polyurethane foam in your application and start reaping the added benefits of vastly improved temperature resistance.

In addition to offering standard sheets, Bellofram is the only source for skinless silicone sponge sheeting skived from buns, making custom thicknesses easy to deliver. Bellofram compounds its formulations in-house for ultimate flexibility and an assured source of raw materials to accelerate delivery. Small batches are a Bellofram specialty.

For more information, visit www.belloframsilicones.com/sponge.

About The Marsh Bellofram Group of Companies

Headquartered in Newell, W. Va., USA, The Marsh Bellofram Group of Companies is an AS9100D and

Unitrex XS™ Max Wear. Unmatched performance in the field and in the boardroom.

Electric line stringing is easier and more economical with Unitrex™. Made with a core of Honeywell Spectra®, it is up to 10 times lighter than steel, while delivering comparable strength. The urethane-coated polyester jacket provides excellent abrasion resistance for great productivity that lasts.

Georgia Boot: Wedge Boots- Tough Enough for the Jobsite; Styled for Outings on the Town

Built for the rigorous conditions and with all day comfort for work on jobsites and farms, but with the style to transition to casual outings around town, the Georgia Boot Wedge collection is packed with comfort, performance and style. If you are working on stories where these boots are a fit, more information is available, as are samples and high resolution images.

AMP LT WEDGE: a classic 10-inch wedge boot packed with comfort and style. The upper is crafted from our premium SPR™ leather, making it incredibly abrasion resistant and more durable against chemicals and acids typically found in barnyard environments. The Counter Lock System on the heel of this pull on boot acts as both a heel-stabilizer to prevent heel slippage and a protectant for kicking your boot off using your other foot. MSRP: \$223.

AMP LT POWER WEDGE: a comfortable heat-resistant 8-inch work boot packed with performance features such as a chemical-resisting leather upper with a Tec-Tuff leather vamp and reflective accents; a 3-D molded counter pocket to lock your heel in place and provide added comfort; and a removable insole that is a polyurethane base topped with a layer of memory foam for great rebound and cushioning. MSRP: \$207.

WEDGE WORK BOOT: the Georgia Boot® Wedge Work Boot is the tried and true work boot filled with comfort and performance for any job from the farm, to around town, or on a jobsite. The Wedge Work Boots feature SPR leather that has 3 times the strength and is able to resist abrasions 2 ½ times better than traditional leathers. The interior is built with comfort features, and a steel shank gives you steady footing and arch support. MSRP: \$171
