Helly Hansen Workwear Delivers on Warmth and Protection with Extension of Kensington & Luna Collections

In 1877, sea captain Helly Juell Hansen developed a better way to stay protected from the harsh Norwegian elements. Now, more than 140 years later, the namesake brand continues to push towards innovation, creating professional-grade gear that can help people stay and feel alive in even the toughest conditions. Founded and based in Norway, Helly Hansen understands the realities of working in the winter environment, and for Fall/Winter 2020, the brand is expanding their workwear collections to take on cold-weather climates with a Kensington Winter Jacket and a Luna Winter Jacket.

The Kensington Collection welcomes the Kensington Winter Jacket as a dedicated winter garment, making the range even more versatile for professionals seeking protection from the elements while on the job.

Featuring HELLY TECH® Performance waterproof, breathable fabric and LIFA-LOFT™ insulation, the jacket is built for warmth and protection while remaining lightweight for optimal function and mobility. Additional features include Primaloft® Black Eco insulation, which dries faster and is more water resistant than down, fully taped construction, articulated sleeves, and an insulated Life Pocket™ to stay connected without draining your battery in cold weather.

a complement to the Kensington Winter Jacket, the Luna Collection also expands with its own dedicated winter gear, the Luna Winter Jacket. As part of the Luna Collection, the jacket was specifically designed and tested by women and delivers performance and protection for professionals working in cold conditions. The Luna Winter Jacket also features HELLY HANSEN® Performance waterproof, breathable fabric, Primaloft® Black Eco Insulation, and a Life Jacket™ alongside an adjustable hood, collar, cuffs and hem for optimal fit.

"Allowing the cold climates people just work through every winter season," said Andreas Pohl-Larsen, Product Director for Workwear Helly Hansen, "we wanted to create dedicated winter jackets so working professionals don't have to feel limited by the performance of their gear and can continue to get the job done all season long."

The Kensington Winter Jacket and the Luna Winter Jacket will be available alongside the entire Kensington and Luna collections in Fall 2020.

Terex Utilities Opens 450,000 sq. ft. Manufacturing Facility

Terex Utilities announces that its new manufacturing headquarters is now fully functional, and the first production units have rolled off the line. The 450,000 sq. ft. facility brings production operations under one roof on a 55-acre site in Watertown, S.D.

The new facility houses assembly, fiberglass, paint, and installation. "By consolidating from 10 facilities into one, Terex Utilities improves internal communications and production efficiencies, which will reduce product lead times to better serve our customers," said Clint Weber, VP/General Manager, Terex Utilities.

Among the first machines to roll off the line included a C6060 digger derrick for Otter Tail Power Company in Minnesota, an HR46 aerial device for Xcel Energy in Minnesota, a LT40 aerial device from NiSource in Indiana and a General 65 digger derrick for Brazos Electric Cooperative in Texas.

"Our manufacturing process enables delivery of quality products because we utilize a stable and

robust U.S.-based supply chain, welding performed by certified team members, powder coating before assembly, and a fiberglass procedure that uses rectangular bi-axial epoxy resin filament winding. Before delivery, assembled units are 100% operationally tested,” said Weber. “We are able to quickly build quality utility equipment to meet the specific needs of customers,” he said.

Terex Utilities hopes to celebrate the opening of its modern manufacturing facility with customers once the Coronavirus is controlled. Until then, this video shows a time lapse of the new facility construction.

About Terex

Terex Corporation is a global manufacturer of lifting and material processing products and services delivering lifecycle solutions that maximize customer return on investment. Major Terex brands include Terex, Genie and Powerscreen. Terex solutions serve a broad range of industries, including construction, infrastructure, manufacturing, shipping, transportation, refining, energy, utilities, quarrying and mining. Terex offers financial products and services to assist in the acquisition of Terex equipment through Terex Financial Services. More information about Terex is available on its website: www.Terex.com, and on its LinkedIn page -- www.linkedin.com/company/terex and Facebook page -- www.facebook.com/TerexCorporation.

Skyward®
A Verizon company

Parrot®

FLY WITH CONFIDENCE

Verizon Deploys Remote Network-Connected Drone During Big Hollow Wildfire

Federal Aviation Administration grants special waiver to allow civilian operations to inspect critical communications infrastructure in the U.S.

The Federal Aviation Administration (FAA) granted Skyward, A Verizon company, a temporary waiver that allows company pilots to fly the Percepto Sparrow drone from their homes to inspect critical communications infrastructure near the Big Hollow wildfire in Washington. The waiver permits operations 24 hours a day, with less than 3 miles of visibility, and no pilot or observer on site.

With multiple natural disasters occurring throughout the United States, the ability to safely inspect sites that support critical communications for first responders has never been more important or necessary.

"At a moment when we are facing dangerous consequences of climate change and coping with a global pandemic, maintaining the Verizon Network has never been more important," said Rima Qureshi, Chief Strategy Officer, Verizon. "Innovations in airborne technology have enhanced our ability to inspect our sites without putting engineers in harm's way, and provide our first responders with reliable communications. We appreciate the FAA's swift action in granting the waiver, which allows us to deploy a network-connected drone and provide critical services, safely and effectively."

Although the FAA can grant "beyond visual line of sight," or BVLOS, waivers to businesses that prove they can fly safely, an onsite pilot or visual observer has still been generally required. In preparation for crises

ROME

Available in 10, 12, 14, and 16 foot widths

Manufacturing Heavy Duty Construction and Agricultural Equipment Since 1932

ROME Plow has been the premier name in heavy duty disc plows for over 87 years.

ROME has been manufacturing pivot dump and ejector scrapers for over 45 years for the construction and agricultural industries.

ROME also manufactures a full line of leveling scrapers (with and without gates) and haul road maintenance tools (with and without rollers)

For more information on our products or for the closest authorized ROME dealer please contact us.

Available in 16, 18, 20, 24, and 30 foot widths

Available with 36 or 42" blades, and up to 20' wide

Available in 18 and 22 yard versions

Available in 24, 28, 31, 34 and 37 Yards

Steel Tracks available to fit any articulating tractor.

such as this, Skyward spent nearly a year testing and proving it could safely fly without onsite personnel. In addition to the groundbreaking nature of the flight, the waiver itself is a milestone for remote deployment of drones in the U.S.

“We’ve built a BVLOS capability consisting of a remotely deployable drone system, weather monitoring systems like those used at airports, Skyward’s Aviation Management Platform, and state-of-the-art airborne safety systems that allow us to check the surrounding airspace for other aircraft,” said Skyward’s Director of Aviation Development Centers whose name is X. “Verizon’s 4G LTE network connected these systems, giving the team’s operations lead in Alaska a near real-time picture of the operation from 1,600 miles away.”

The waiver was granted through the FAA’s expedited Special Governmental Interest process. The waiver applies to drone support operations for critical infrastructure that maintain communications for emergency responders and extends until Friday, Sept. 25.

Since September 9, the Big Hollow Fire has burned more than 24,000 acres and caused mandatory evacuation orders in the area. The location of the critical communications infrastructure itself is within blocks of a Level 1 evacuation order and the air quality was unsafe for humans. This operation not only allowed Verizon engineers to confirm the integrity

and operability of its infrastructure was not impacted, it also allowed them to do so without putting people in harm’s way.

Verizon continues to closely monitor dozens of wild-fires burning in the western US and our network is currently performing well with no significant impacts to date.

Our Verizon Response Team (VRT) is available 24/7 to provide on-demand, emergency assistance to first responders. We are mobilizing charging stations, WiFi hotspots, devices, special equipment, emergency vehicles and more to support local, state and federal agencies in Arizona, California, Colorado, Idaho, New Mexico, Nevada, Oregon, Utah, Washington and Wyoming.

Verizon Communications Inc. (NYSE, Nasdaq: VZ) was formed on June 30, 2000 and is celebrating its 20th year as one of the world’s leading providers of technology, communications, information and entertainment products and services. Headquartered in New York City and with a presence around the world, Verizon generated revenues of \$131.9 billion in 2019. The company offers data, video and voice services and solutions on its award winning networks and platforms, delivering on customers’ demand for mobility, reliable network connectivity, security and control. •

MADE FOR **MORE** TO KEEP PACE WITH **YOU**

You begin each day before dawn with a drive and determination to do **more** than the day before. When you move at this pace, you know to do more you need equipment that is made for more. That's why our utility line and land clearing equipment, like our **Forestry Mulchers and Aerial Trimmers**, is built from the ground up to meet your needs, delivering:

More Power and Production
Lower Operating Costs
Greater Reliability
Better Safety Features
Superior Operator Comfort and Control

If you're ready to operate equipment that's made to keep pace with you, then we invite you to go to **morbarkdealers.com** to find your local authorized Morbark or Rayco dealer. Your dealer will work with you to assess your needs now and in the future, as well as offer equipment recommendations, financing options, wear parts and service if you should ever need it.

Equipment is available for **SALE** or **RENT**.
