ARE YOU IN COMPLIANCE?

ELECTRICAL SAFETY IN THE WORKPLACE WITH RESA POWER

When it comes to hands-on power systems engineering and repairs, the safety of technicians is always paramount.

RESA Power offers Arc Flash / Safety / NFPA 70E Awareness Training to prioritize the well-being of technicians and minimize the chance of injuries, downtime, and property damage.

- Arc Flash Safety Awareness Classes
- NFPA 70E Compliance Assessment
- NETA / NFPA 70B Testing and Maintenance

Make sure your workers stay out of harm's way and are up-to-date on critical compliance updates set by OSHA and the NFPA 70E 2021 Standard for Electrical Safety in the Workplace.

Our training classes can benefit anyone who wants to stay informed on the latest safety practices - from Electricians and Contractors to Environmental Health and Safety (EHS) Managers and facility maintenance personnel.

Our instructors are professionally trained and have decades of field experience with electrical safety to offer.

Company Profile:

When the sun comes up and the lights go on, we are doing our best to provide a high quality product for the vital industries we serve. We try to make our customers' job as easy as possible. Hearing their needs, designing around those requirements, and successfully supplying products to keep our economy running. Centrally located in the Midwest, Brooks Brothers Trailers is a manufacturer with 200,000 square feet of production facilities on our 46- acre campus, allowing for product development, consistent quality manufacturing, and evercontinuing business growth. Beginning in March of 1975, in his grandpa's small shop, an 18 year old Roger Moran started fabricating. And then in 1982 started, what has been a continuous process of growth and development, designing new products and increasing manufacturing capabilities. Having expanded the product line, Brooks Brothers Trailers now produces Overhead and Underground Pullers, Tensioners, Self-Loading Reel Trailers, and Pole and Cable Reel Trailers. Having been in business over 45 years, Brooks proudly serves customers covering a broad spectrum of industry to include Electric, Gas, Oil, Mining, and Solar. Whether it

be one unit or large quantities, we can provide your fleet manager a wide ranging catalog of product. Our industry is very demanding, but we can tailor a piece of equipment to satisfy each utility's request. It is a never ending striving to improve by getting feedback from lineman in the field and looking for better ideas to make our equipment better.

We recognize we could never build everything for everyone, so we have great respect for our competitors, hoping we can collectively make our nation's infrastructure more efficient and durable, as the world's demand for power is ever-increasing. At Brooks Brothers Trailers, we are thankful and honored to be a part of the American free-enterprise economic system, where hard work and ingenuity continues to make the United States a great nation. Likewise, we are thankful for our competitors, whose hard work and ingenuity inspires us to continually improve our products and to do better in the ways we serve our customers. Having been in

a continual state of growth for several decades, and having made significant technological advancements in our manufacturing process, we are well suited for the future needs of the power generation and distribution industries. Our sales and in-field demonstration teams, having over 80 years combined utility experience are here to help you. Serving electric, communications, and oil and gas sectors, Brooks Brothers is here to join your team and serve you for years to come, with a goal of 100% satisfied and happy customers.

Partnering with some of the top utilities, national equipment dealers, and selling directly to those needing customization, we provide simple and practical designs. Although part of the global energy industry, we consider it a small industry in regards to our customers, as reputation is generally conveyed by word of mouth. We believe in honesty, integrity, and truthfulness. Designing equipment for ease of use,

with practical controls, and being motivated to diminish customer frustration, we will stand by our quality, sell at a fair price, and do what is right. Honestly, we would rather not make money on parts and service, but rather, provide a durable piece of equipment to be used for many years. As one of the most versatile manufacturers with a significant emphasis on specialty products for the energy industry, we continue to strive to maintain a small business feel. We will answer the phone, not trying to sell you something you don't need, but getting the right equipment into service for you. A man makes his plans, but God directs his steps. With an exceptional group of employees and customers, we will keep producing, and if the Lord keeps blessing, we will keep building.

*"As a safety professional, you always want your workers to have access to leading edge safety tools that improve safety and focus. Working with **COOLSHIRT SYSTEMS** over the past two years allowed me to help design a tool by lineman for lineman."*

*The **A.R.C. Hybrid Cooling System** by **COOLSHIRT SYSTEMS** allows lineman to remain more focused and less fatigued by reducing their core body temperature in extreme environments, therefore reducing the possibility of unintended accidents."*

-James "Jim" Bonner
Compliance Coordinator- Retired
Alabama Power

A.R.C. Hybrid Cooling System

Complete Arc Rated Portable Cooling Solution

Developed in conjunction with major power companies for use in extreme heat conditions, the **A.R.C. Hybrid Cooling System** uses liquid cooling to reduce fatigue, injury, and heat stress related illness.

Designed specifically for use by linemen, the **A.R.C. Hybrid Cooling System** features a compact design with a custom woven strap mounting system. The use of S-hooks offers the versatility of mounting inside or outside of the bucket. The system includes our mobile ice based cooler, a 7 hour lithium ion battery with charger and a **CAT 2, 12 CAL** rated Liquid Cooled Vest for **70E Arc Flash** protection.

Designed with portability in mind, measuring **6" x 6" x 20"** and weighing in at **less than 10 lbs dry**, the unit is entirely self-contained and built to last with a 20,000 hour pump.

32 ACRES

of equipment
and services

The control panel was designed with operator ease of use in mind. The hydrostatic control lever provides for smooth pay in while rope deployment can be controlled manually or by the hydraulic braking system. The hydraulic level-wind system is activated when switching to the drum being used, while the planetary drive system is engaged by a simple manual control.

Operators in the field will enjoy the simplicity of this machine and the efficient time-saving benefit of quick set-up in any direction. Pull up on the side of the road, stabilize with the outrigger system, and rotate the turret down your line, and you will be set up, ready to go. We believe this puller will save you time and money pulling in your overhead conductor as customers have thanked us for this efficient and effective machine.

This unit is available in paint or galvanize, has an operator canopy, has easy to use outriggers, and convenient drum grease points. Give us a call today at 866-462-7665 to discuss our line of pulling products for better pulls and fewer headaches or check out our website at **www.brooksbrotherstrailers.com** •

Company Profile: Alexander Publications

Alexander Publications is a leading provider of technical books, training manuals, and videos for the electrical industry. Since our establishment nearly 30 years ago, we have built a comprehensive training and safety resource library for utility workers, electrical contractors, and safety directors.

Our products are designed to help lineman, engineers, metermen, trainers, substation operators, and utility workers work safely, efficiently, and save time and money. We specialize in transmission, distribution, substations, and metering, with a product line of over 500 resources carefully selected for their ability to meet the needs of our customers.

At Alexander Publications, we are dedicated to supporting the training, safety, and continuing education of utilities, Co-Ops, educational institutions, and customers worldwide. Our publications are created by industry experts offering years of expertise and experience, ensuring that our customers receive accurate content that is applicable for work conducted in the field, office, and everywhere in between.

We take pride in providing exceptional customer service and building long-lasting partnerships. Our team is always available to answer questions, provide support, and suggest content that best supports team's training and continuing education needs.

Alexander Publications is the go-to source for anyone in the electrical industry looking for high-quality books, training manuals, and videos. We are committed to providing our customers with the tools and knowledge they need to excel in their roles. We are honored for the opportunity to empower the people that power the grid and look forward to working with your team to champion safety, efficiency, and continued learning.
